How to install

After a successful build, the installation file will be generated in the folder ".\ConsoleApp1.Installer\Installs\TicTacToe-1.3.0.0-Debug-x64.msi"
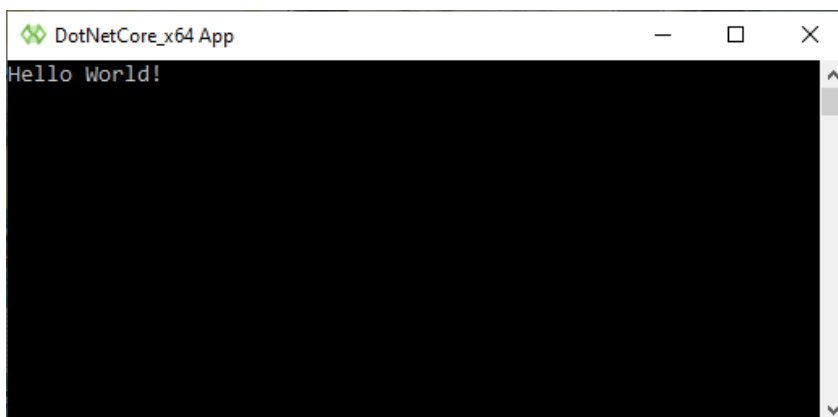

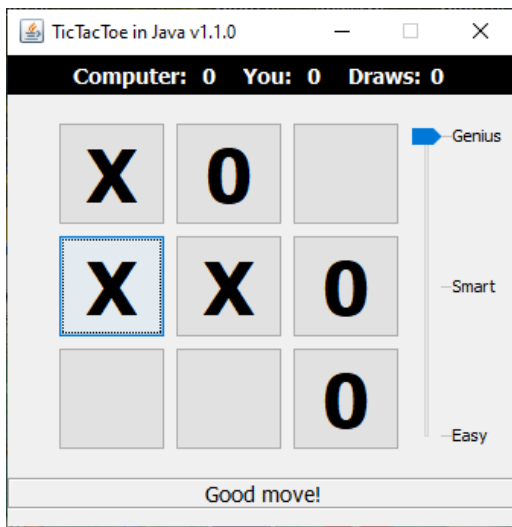

Run TicTacToe-1.3.0.0-Debug-x64.msi
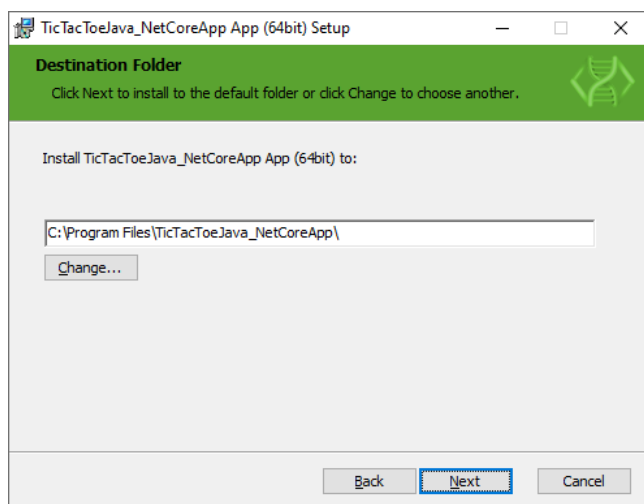

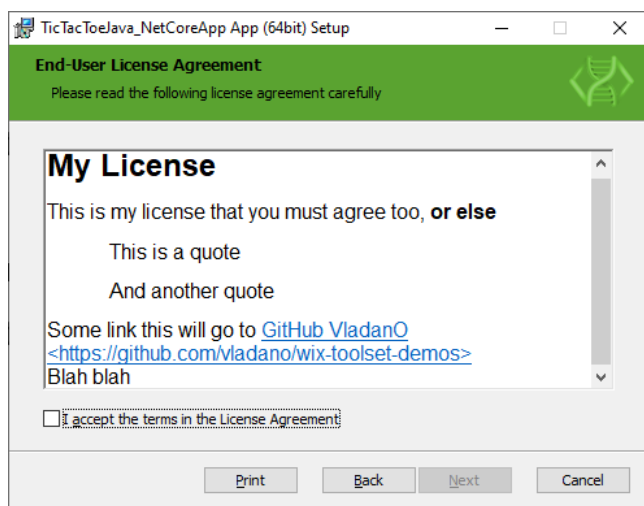

On Start Menu

When start first shortcut in Start Menu you will start .NET Core application (all files for .NET Core installed with application)

When start second shortcut in Start Menu, you will open Java Application from installed .jar file

On the Control Panel you can see that WixSampleInstaller instaled

On the Program Files location, you can see that all components installed inside the folder "C:\Program Files\TicTacToeJava_NetCoreApp"
